PROJECTS

Food Order

Jul 2024 - Sep 2024

- The **Food-Order Project** is a web application built using the **MERN stack**.
- Users can create accounts, explore menus, add items to the user cart, and place orders in real-time.
- Admins can manage restaurant data, update menus, and track order statuses.
- The project integrates secure payment processing, real-time order tracking, and responsive design.
